Tuesday Oct. 5th | 6:30 pm

A Provider Conversation & Community Q&A about COVID-19's Impact on Children

"A Provider Conversation and Community Q&A about COVID-19's Impact on Children" invites the York community into a candid dialogue between medical experts about the impact of COVID-19 on children and adolescents.

This session will feature **Dr. Oluwatomi Uwazota**, a Family Practice Physician at Family First Health, and **Dr. Almira Contractor**, a Pediatrician at WellSpan Community Health Center. After a brief presentation and provider conversation, the providers will spend the majority of the session answering live questions from the community, in real-time.
